EXAMINER

KNOWLIN, THJUAN P

ART UNIT

PAPER NUMBER

2642

17

DATE MAILED: 07/28/2003

Please find below and/or attached an Office communication concerning this application or proceeding.

Advisory Action	Application No.	Applicant(s)
	09/716,898	BARTHEL ET AL.
Examiner	Art Unit	
Thjuan P Knowlin	2642	

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 11 July 2003 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114.

PERIOD FOR REPLY [check either a) or b)]

a) The period for reply expires 3 months from the mailing date of the final rejection.
 b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.
 ONLY CHECK THIS BOX WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. A Notice of Appeal was filed on _____. Appellant's Brief must be filed within the period set forth in 37 CFR 1.192(a), or any extension thereof (37 CFR 1.191(d)), to avoid dismissal of the appeal.

2. The proposed amendment(s) will not be entered because:

- (a) they raise new issues that would require further consideration and/or search (see NOTE below);
- (b) they raise the issue of new matter (see Note below);
- (c) they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
- (d) they present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: _____.

3. Applicant's reply has overcome the following rejection(s): _____.

4. Newly proposed or amended claim(s) _____ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).

5. The a) affidavit, b) exhibit, or c) request for reconsideration has been considered but does NOT place the application in condition for allowance because: See Attachment (Response to Arguments).

6. The affidavit or exhibit will NOT be considered because it is not directed SOLELY to issues which were newly raised by the Examiner in the final rejection.

7. For purposes of Appeal, the proposed amendment(s) a) will not be entered or b) will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.

The status of the claim(s) is (or will be) as follows:

Claim(s) allowed: NONE.

Claim(s) objected to: NONE.

Claim(s) rejected: 1-6 and 9-12.

Claim(s) withdrawn from consideration: NONE.

8. The proposed drawing correction filed on _____ is a) approved or b) disapproved by the Examiner.

9. Note the attached Information Disclosure Statement(s) (PTO-1449) Paper No(s). _____.

10. Other: _____.

Examiner: Thjuan P. Knowlin

Response to Arguments

Applicant's arguments filed July 11, 2003 have been fully considered but they are not persuasive. Applicants' state that Redd does not teach initiating a telecommunication service due to an event, which differs from a connection setting-up request from a subscriber. The "connection" is basically a normal telephone call to a normal telephone number. Applicants further state that Redd does not teach generating a virtual telephone number via the telecommunication service after activating the telecommunication service. Although the virtual number in Redd exists prior (is stored) to the activation of the service, it can still be "generated" (dialed), as in the present invention, once the service is activated. Therefore, it does not matter whether or not if the virtual number, in Redd, exists prior to service activation, because it will be generated (dialed) after the service activation. Applicants' state that Redd does not teach signaling the virtual telephone number to a service provider; the service provider in turn indicating an occurrence of the event. Examiner respectfully disagrees with this argument. Redd does teach these features (col. 5 lines 63-65, col. 11-12 lines 52-1, col. 12 lines 21-41, and col. 16 lines 62-67). Applicants' further state that Redd does not teach using a switching point to transmit the virtual telephone number from the service provider to initiate the telecommunication service after the occurrence of the event. Examiner respectfully disagrees with this argument. Redd does teach using a switching point (SSPs 11, 13, 15, and 17) to transmit the virtual telephone number from the service provider to initiate the telecommunication service after the occurrence of the event (col. 9 lines 21-42, col. 11 lines 35-48, and col. 13 lines 7-11).
